6 BCN3DR ASSEMBLY GUIDE WIRING

Procedimiento de cableado

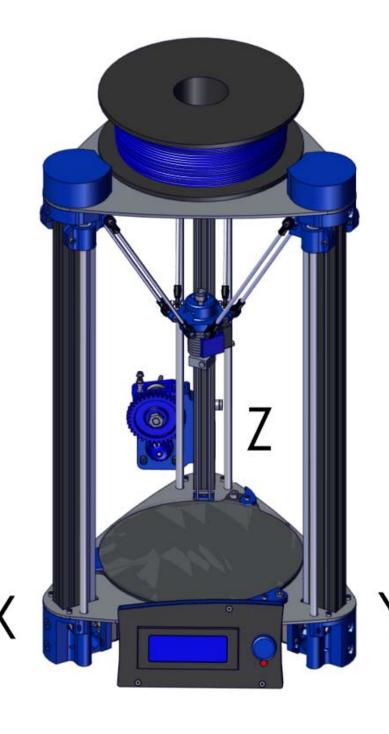

En la esquina superior derecha hay los nombres de los cables que se necesitarán en cada paso. Estos nombres corresponden a los nombres de los cables de la caja de electrónica.

Es importante tener en cuenta la situación de los tres ejes que forman la máquina (X, Y y Z) según esta imagen.

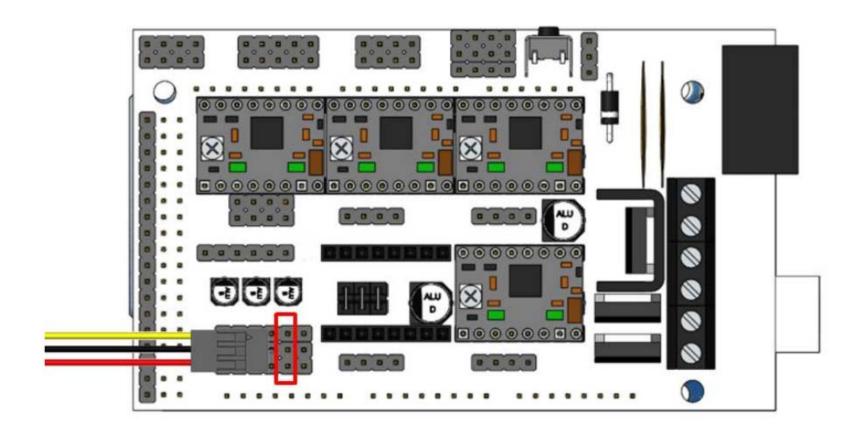

Vigilar la orientación de los cables según el código de colores.

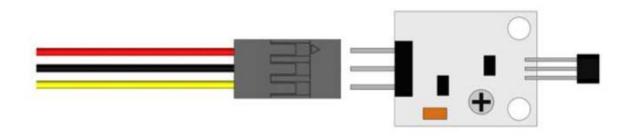

Asegurarse de conectar los elementos en el lugar resaltado de la electrónica.

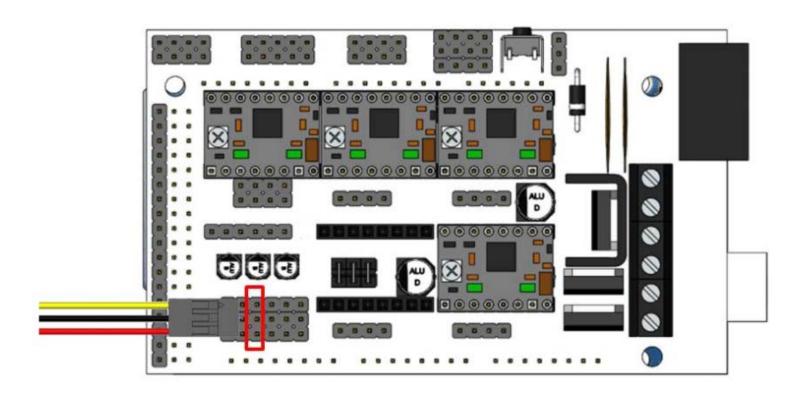

NO MANIPULAR NUNCA EL CABLEADO Y LA ELECTRÓ-NICA CON LA MÁQUINA ENCENDIDA.
